The map below uses color coding to show how many California Continuums of Care (CoCs) counted more or less persons as homeless in 2019 when compared to their 2017 homeless counts. The color code is as follows:

- Red colored CoCs are those that counted more persons in 2019;
- Blue colored CoCs are those that counted less persons in 2019;
- Gray colored CoCs are those that have not yet released their 2019 homeless count results to the public.

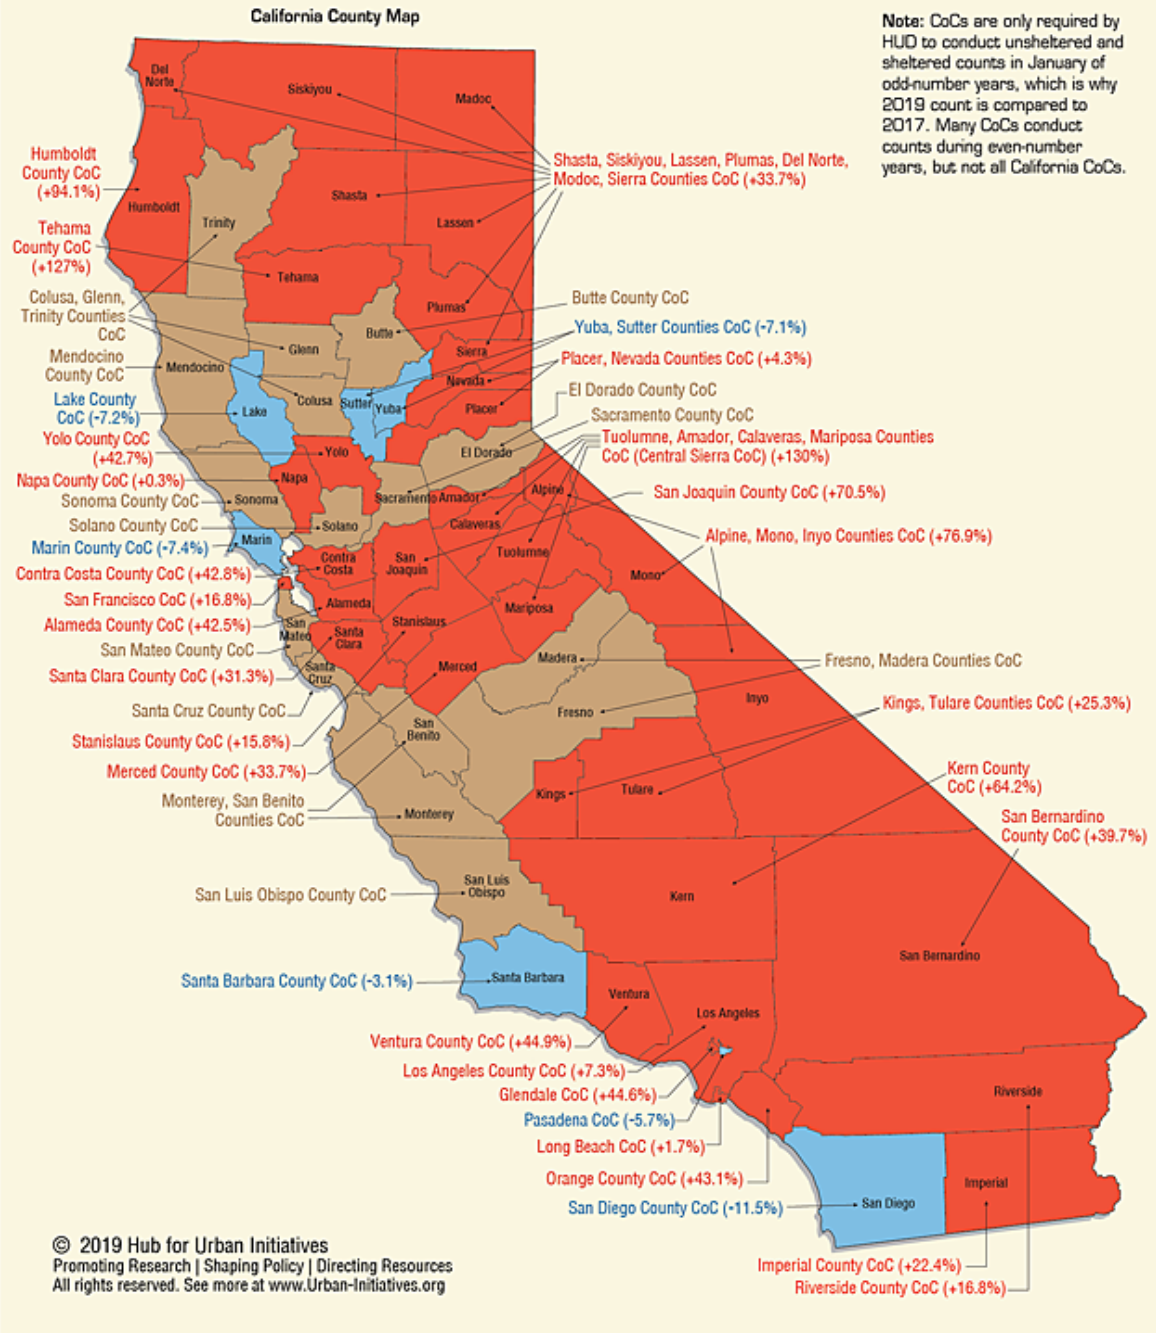

California is divided into 43 CoCs by the U.S. Department of Housing and Urban Development (HUD). HUD requires CoCs to conduct an unsheltered and sheltered count during the last 10 days in January in odd number years as part of their funding request for Continuum of Care Program funding. CoCs do not have to conduct an unsheltered count in even-number years. Twenty-one California CoCs conduct an unsheltered count in even number years and 22 do not. Thus, 2019 California CoC counts were compared to 2017 counts.

The percentage noted on the map for each CoC is taken from Table 1 below, which includes the number of persons counted as homeless in 2017 and 2019 for each CoC and lists the difference between the years in number and percent.

The map and Table 1 will be updated as more homeless count results are made public. The updates will be noted in future reports.

California Continuums of Care: Comparison of 2017 and 2019 Homeless Counts

- CoCs with % of decrease in total persons between 2017 and 2019
- CoCs with % of increase in total persons between 2017 and 2019
- CoCs that have not yet released their 2019 homeless count results to the public

Table 1 lists the 2019 homeless count results for the 31 CoCs that made their homeless count results public. Of the 31 CoCs,

- 5 or 16.1% counted three-fourths or more persons;
- 11 or 35.5% counted between one-third and two-thirds more persons;
- 9 or 29.0% counted less than one-third more persons;
- 6 or 19.4% counted less persons.
